

# MUST U.S. BOYS DIE FOR U.F. CO.?

FLASH! 700 U.S. troops have been sent to Nicaragua on a "military assistance" mission. Nicaragua is near Guatemala!!!!

THE THREAT OF U.S. MILITARY INTERVENTION IN GUATEMALA IS REAL.

THESE THREATS ----->  
by high U.S. government officials are typical examples of Dollar Diplomacy.

Guatemala is bringing long-needed reforms to its people - education, social security, right to organize, land reform. Part of the government's program is to take unused land - pay for it - and distribute it to landless peasants.

This hits at U.F. Co. (United Fruit Co.) - biggest land monopoly in Guatemala. U.F. Co. is complaining they aren't being paid enough for their land! This - even though they are being paid on the basis of their own evaluation!

## THREAT!

"Public opinion in the United States might force us to take some measures to prevent Guatemala from falling into the lap of international Communism. We cannot permit a Soviet republic to be established between Texas and the Panama Canal."

-John E. Peurifoy, U.S. Ambassador to Guatemala, quoted in 'TIME', Jan. 11.

## THREAT!

Guatemala "has become a dangerous bridgehead of international communism in this hemisphere." -

-Sen. Alexander Wiley, Senate Foreign Relations chairman, Jan. 14.
